Dear Reader

## Construction of Mausoleum at Rothwell Road Kettering Crematorium Site

Kettering Borough Council accepted quotations from Kenmuir Builders Ltd for the construction of 3 Mausoleums and associated works in the Cemetery at the Councils Crematorium site.

The decision to place orders for the works with Kenmuir Builders was taken after:

- Inviting Quotations from 7 Contractors.
- Taking up References and undertaking rigorous financial checks.
- Evaluating quotations received on pre-determined Price and Quality criteria by staff and members of the local community who had requested there construction.

Prior to placing the order with Kenmuir Builders they supplied comprehensive and impressive list of the materials they intended to use to construct the Mausoleum.

The construction of Mausoleum was a first for both Kettering Borough council and Kenmuir Builders and there was no professional assistance or guidance available on there construction.

As a result of the lack of guidance we were both on a sharp learning curve and James Lewis and his construction team's assistance in refining the design on site was impressive and invaluable.

During the construction of the work James Lewis provided a competitive quotation for installation of underground ducts at the exit to the Crematorium. His team completed this work at very short notice in an extremely professional manner such that there was no disturbance to services and without affecting the works on the Mausoleum.

All of the procurement team, visitors and users have nothing but praise for the standard of work and the improvements made to the original Mausoleum design by James and his team of workers.

We have found Kenmuir Builders to be flexible and co-operative in particularly difficult circumstances as services continued throughout the construction process.

---

*Working with and on behalf of local people*

After completion of the works James continued to provide invaluable guidance and advice beyond our expectations.

The project was completed on time and price and the site was left in a clean and tidy state on completion of the works.

Kettering Borough Council would have no hesitation in recommending Kenmuir Builders to others and are looking forward to working with Kenmuir Builders on future construction work.

Please do not hesitate to contact me if you would like me to visit your premises or if you would like to discuss Kenmuir Builders performance and work.

Yours faithfully
